

Fulfilling your big IT dreams at JIMS

Information technology department at JIMS has always pioneered in establishing new standards in IT education covering all aspects required to develop world class technocrats in accordance to the mission of the department. A journey which started in 2001 with the initiation of MCA program affiliated to Guru Gobind Singh Indraprastha University (GGSIPU), has not only achieved several milestones as established by the industry, but has also set new benchmarks for others to follow. MCA program at JIMS was the first in Delhi region to be accredited by prestigious National Board of Accreditation.

Academically when our students regularly featured in University toppers list with best of grades and special nominations for exemplary performances, it motivated the next batches to follow ultimately creating a legacy for JIMS. To name a few in recent batches, our students Ms Shweta Bajaj and Mr Mohit Jain have reached the main stage of GGSIPU convocation as University Toppers, and Mr Anurag sharma, Ms Richa, Ms Swati Jain, Ms Shruti Aggarwal have been awarded by the University for their Exemplary Performance in academics. Our students have demonstrated their skills at various platforms by participating and winning competitions like Hackathons and Projects presentations.

With special efforts and support of our faculty members, our students have participated in both editions of Smart India Hackathon (SIH) organized by AICTE and MHRD and have reached grand finale at Manipal, New Delhi, Hubli, Guwahati, Bhopal, Nagpur and Chandigarh. This year in 2018, our student team participating at Chandigarh has won the 2nd runner-up position overall and 1st position in software edition of SIH. In 2017 our student team won the 1st position at National Productivity Council under Ministry of Commerce and Industry by presenting a mobile application for identification of recyclable material.

It was a proud moment when their interview was broadcasted by All India Radio, our national broadcaster. Recently, our two teams participating in Smart Village Hack-

■ IT department has shown an impeccable placement record

OUR EFFORTS IN RESEARCH HAVE BEEN SHOWCASED AT VARIOUS CONFERENCES AT IITS AND IIMS WHERE RESEARCH PAPERS OF OUR FACULTY ARE REGULAR ENTRIES

athon at Bengaluru, won the 2nd runner-up position and special nomination award.

Both teams will be now working on live projects with IBM. Apart from this there is a long list of achievements and accomplishments by our students which reflect the facilities at the nursery where these talents have been nurtured.

IT department has shown an impeccable placement record with 100% placement of both MCA and BCA students in companies like IVP, Nagarro, NIIT, To The New, NCR, AON Hewett, CapGemini, Deloitte, SAP Labs, Concentrix, Infosys, TCS, Zeus and TCS. Highest package claimed by our students is 9.95 lpa and average of 4.25 lpa. Our strong alumni base of thousands of alumnus have always been our strength and are regulars at alumni

meets, alumni dinners and alumni coffee series organized by JIMS to encourage an interaction between existing students and alumni.

Their feedback hold the key to success. Based on this feedback and recommendations, we try to inculcate new technologies along with standard University curriculum to make our student placement ready. Technologies like Android, Python, Django, PHP, AngularJS and NodeJS are incorporated as part of summer school and workshops for students. Along with that regularly organized seminars and symposium where students interact with Industry professionals give them a new perspective about job market.

To motivate our faculty members and students in research and creative thinking, department provides access to several National and International Journals of repute in hard copy as well as subscription to online-journals package of IEEE, Springer and Sage. Moreover institutional membership with Computer Society of India (CSI), British Council, International Society for Technical Education (ISTE), National Digital Library (NDL) and a well-stocked separate IT Library with more than 2500 titles and

22000 books is the icing on the cake.

Our efforts in research have been showcased at various conferences at IITs and IIMS where research papers of our faculty are regular entries. IT department annually organizes an International Conference called ICCCT which has recorded participation from researchers from countries like Canada, Nigeria, Bangladesh, Pakistan, Mauritius, North Korea etc along with huge participation from Indian delegates. Conference proceeding were published by Springer. Our IT Journal 'JIMS 8i-IJICCT' has also gained a special reputation in academic circles.

Our effort has always been on identifying the individual strength areas of each student, nurturing and guiding it, and help it shape into a career.

We understand the aspirations of students, parents and society at large, but we also understand the requirements of IT industry. We have always walked this tight rope and have always struck balance between these two.

At IT department, we train, we teach, we guide, we mentor, not only our students but also our team to attain our mission of being institute of excellence in IT education.
